29TH INTERNATIONAL SYMPOSIUM ON VLSI DESIGN AND TEST (VDAT-2025)

VLSI Design and Semiconductor Technology for Next Gen Chips & AI Applications

7 - 9 AUGUST 2025   **CHANDIGARH, INDIA**

CALL FOR PH.D. FORUM

The Organizing Committee of the VDAT 2025 invites submissions to the Ph.D. forum to be presented at the conference, scheduled for 7-Aug-2025 in Chandigarh. This forum is an exclusive opportunity for PhD students who have submitted their thesis within the past 1 year (after 1st June 2024) or are nearing completion to present their cutting-edge research, share insights, and engage with peers and experts in the field. This forum provides a platform to showcase your work, gain valuable feedback, and establish connections with fellow researchers and industry professionals. We invite entries from eligible young researchers across India to participate in the PhD research forum and seize this chance to share their research endeavors with the community. We look forward to receiving your tutorial proposals and seeing you at "The International Symposium on VLSI Design and Test, 2025!"

SUBMISSION INFO

Format: The extended abstract must strictly adhere to the provided template and be in PDF format only. The font size should be a minimum of 10pt, using the Times New Roman font. The document should not exceed three pages, including tables, diagrams, and references (if any).

Presentation: 15 Mins in-person at the conference venue
Submit a single PDF containing all the information listed below.

1. **Title** : Title of the Ph.D. Forum, limited to 20 words
2. **Abstract:** Clearly outlining the intent of the thesis
3. **Keywords:** Provide at least 5 keywords
4. **Research Contributions:** Please list at least 3 major research findings from the thesis
5. **Brief Explanation of Research Outcomes:** A note on individual research contributions
6. **Research Dissemination:** The research papers/tools published out of and strictly restricted to the thesis. Citing research papers unrelated to the thesis may lead to rejection of the Ph.D. forum report.

Domain of the Ph.D. Thesis: Aligned with any track in the conference. Please note that the thesis need not be exactly limited by the tracks listed.
Author Details: Qualification, experience, other conference presentations or publications in similar domains showcasing speaker's expertise. Please provide a biography of each speaker (limiting to 300 words each).
